

## **LMB CONTAINERS**

Smart storage in storage lifts

## Smart storage of small parts – with the LogiMat® Container

# LMB Container

The LMB container series has been specially designed for use in storage lifts. The containers have been optimised as partition to the tray depth of 800 mm and can also be individually subdivided with partition walls. This enables a fast and simple alignment to your stored goods.

## Advantages:

- ▶ Maximize space with the maximum utilization of tray depth
- ▶ Variable style: 100, 200 or 400 mm width
- ▶ Adjustable height: 100 or 200 mm
- ▶ Ergonomic access from above
- ▶ Angled surfaces for stickers
- ▶ Light and solid PP material
- ▶ Easily integrated into other storage lifts
- ▶ Easy to clean

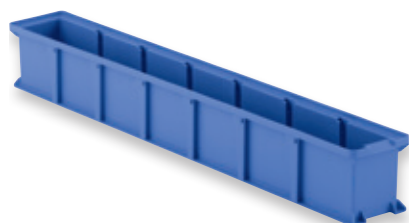

## Dividers

### Advantages:

- ▶ Unique snap in system: sliding through of storage goods no longer possible
- ▶ In each container a maximum of 6 separating walls can be used in a grid of 100 mm
- ▶ Angled surfaces for stickers
- ▶ Silent (in contrast to conventional metal sheets)

## Clever combined – LMB plus LogiMat®

The vertical lift LogiMat from SSI Schaefer is your all-in-one storage and picking solution. With its numerous main functions and unique additional options, the LogiMat not only improves the performance of your storage processes, it also guarantees an ergonomic and safe operation in your warehouse.

The LogiMat can be used as an autonomous system or integrated into a wider picking application.

#### **Your advantages:**

- ▶ Highly convenient “goods to person” concept
- ▶ Reduces the floor area required for storage by up to 90% compared with conventional static storage solutions
- ▶ Travel times reduced by more than 70%
- ▶ Automated processes and ergonomic design improve performance by more than 20%
- ▶ Compact design has economic and environmental advantages
- ▶ Makes optimal use of the available room height
- ▶ From the container to the hardware through to the control and software – a rounded solution for storing and order picking small parts from one hand

#### **Unique:**

- ▶ The LogiMat features the tilt mechanism LogiTilt, which enables the ergonomic retrieval of goods and reduces the reaching depth for operators
- ▶ Thanks to LogiWork, the height of the output table can be adapted to the height of the employee
- ▶ The LogiPointer designates the removal position
